ChiliProject - Bug # 1011: activity page throws error

Status:	Declined	**Priority:**	Normal
Author:	Roland Fehrenbacher	**Category:**	
Created:	2012-05-10	**Assignee:**	
Updated:	2012-05-19	**Due date:**	

Remote issue URL:	
Affected version:	3.1.0
Description:	In ChiliProject 3.1 I get

<pre>
NoMethodError (undefined method `journal_class_name' for Object:Class):
  lib/redmine/activity/fetcher.rb:83:in `events'
  lib/redmine/activity/fetcher.rb:82:in `each'
  lib/redmine/activity/fetcher.rb:82:in `events'
  lib/redmine/activity/fetcher.rb:81:in `each'
  lib/redmine/activity/fetcher.rb:81:in `events'
  app/controllers/activities_controller.rb:38:in `index'
</pre>

when hitting the Activity tab.

Any idea what's wrong?

Have you run the upgrade migration successfully?

2012-05-18 08:59 am - Roland Fehrenbacher

Yes.

Just to make sure, I just executed again:

<pre>

$ bundle exec rake db:migrate RAILS_ENV=production

$ bundle exec rake db:migrate:plugins RAILS_ENV=production

</pre>

with no errors.

2012-05-18 11:16 am - Felix Schäfer

Do you have any plugins installed?

2012-05-18 11:20 am - Roland Fehrenbacher

<pre>

projects_tree_view

timesheet_plugin

stuff_to_do_plugin

redmine_arch_decisions

chiliproject_otrs2_chili

wiking

redmine_issue_control_panel

wiki_tabs

redmine_todos_plugin

</pre>

2012-05-18 01:20 pm - Martin Bischoff

We have had the same error in our installation; the reason is this change in the Chiliproject API

"acts_as_journalized":https://www.chiliproject.org/projects/chiliproject/wiki/Acts_as_journalized

Our quick and dirty solution: edit redmine_todos_plugin/app/controllers/models/todos.rb

2012-05-19 08:44 am - Felix Schäfer

- Status changed from Open to Declined

Roland, this indeed probably is an incompatibility of a (or more) plugin with newer ChiliProject versions, please contact the maintainer of the plugin.

Closing this issues as it's not a problem with the core.

> Our quick and dirty solution: edit redmine_todos_plugin/app/controllers/models/todos.rb

Do you have a diff by any chance? The change doesn't seem straightforward to me as a non-Ruby developer.
