

ChiliProject - Bug # 1014: JavaScript not labeled as free

Status:	Open	Priority:	Normal
Author:	Kete Foy	Category:	
Created:	2012-05-15	Assignee:	
Updated:	2012-05-15	Due date:	
Remote issue URL:			
Affected version:			
Description: Nontrivial JavaScript should have a free license, so we can know what our browsers are doing. With libre licenses, we can study the JavaScript source code. This code could use a simple license declaration in the header as described at http://www.gnu.org/philosophy/javascript-trap.html#AppendixA
