<b>Description:</b>			
I'm running ChiliProject 3.0.0.11e93ff36 (MySQL). When we click on the names of people in Issues from the list of Watchers, or in the History, Chiliproject throws an "Internal Error".			
I have these plugins installed.			
<pre>&lt;pre&gt; # ls acts_as_activity_provider  acts_as_tree      prepend_engine_views acts_as_attachable        acts_as_watchable  redmine_cas acts_as_customizable      awesome_nested_set  redmine_wiki_extensions acts_as_event             classic_pagination  rfpdf acts_as_journalized       engines            stuff_to_do_plugin acts_as_list              gravatar acts_as_searchable        open_id_authentication  &lt;/pre&gt;</pre>			
Here is the error log...
