	Users have a difficult time finding the issue edit functionality.		
	h3. Current Flow Open Issue > Update > "More" link		
	h3. Proposed Flow Open Issue > Edit		
	h3. Proposed Changes "Update" verb changed to "Add Activity" with a plus icon to clearly differentiate an edit from an update action. "Edit" link, with pencil (iconography normally associated with editing). Time <u>could</u> serve as an activity to add, reducing the need for the link in the context menu.

[2012-06-12 18:38] <meineerde> nicc: what should the scope of the "add activity" be? everything that is today on the update form? more? less?
[2012-06-12 18:39] <nicc> ahh, sorry, I'd say remove properties
[2012-06-12 18:39] <nicc> those should go to edit
[2012-06-12 18:39] <nicc> log time/notes/comments are definitely logical
[2012-06-12 18:39] <meineerde> Okay, I'm fine with this.
