

ChiliProject - Bug # 1084: Replace fieldsite inline JS

Status:	Open	Priority:	Normal
Author:	Andrew Smith	Category:	
Created:	2012-07-15	Assignee:	Andrew Smith
Updated:	2012-07-15	Due date:	
Remote issue URL:			
Affected version:			
Description: Currently the fieldsets are shown/hidden using some inline JS. Without JS enabled some are hidden with no way of showing their contents. These should be replaced with some stand JS and CSS that won't hide the contents should a user not have JS enabled. Child of #1083
