Updated:	2012-08-12	Due date:	
Remote issue URL:			
Affected version:			
Description:	I would very much like a filter option to select a user (or at least a my time only option) in the Overall Time Spent report. This would be helpful with our timesheet reporting.

You have 2 tabs on the overall time report, one "details" and one "report". The second at least gives you the ability to group and sum by users.

I agree that this could and should be improved though.
