<b>Description:</b>	Hello,		
	It would be great to assign default groups for newly created projects.		
	Example:		
	Managers are able to open projects for each customers they have in charge, if we can add automatically the groups "Developers, Engineers, ..", it would be very helpful.		
	However this settings may be inherited from the top level project since we don't want this on all projects.		
	<pre>&lt;pre&gt; -Another Project(default_groups_id == nil )        -- Proj A (no default_groups_id)    -Customers (default_groups_id = [devs, engineers])    -- Cust A (inherits default_groups_id )  -- Cust B (inherits default_groups_id ) &lt;/pre&gt;</pre>		
	This is just an example and i'm sure there is a better way to integrateit.		
	Thanks you.		
	David.
