

ChiliProject - Bug # 151: Fix the CVS tests so they don't print output to the console

Status:	Open	Priority:	Normal
Author:	Eric Davis	Category:	Testing
Created:	2011-02-06	Assignee:	
Updated:	2011-02-06	Due date:	

Remote issue URL:

Affected version:

Description: When running the CVS tests the commands are output to the console making it difficult to check for errors:

```
<pre>
Started
.....
.....
.....cvs rlog: Logging test.....
cvs rlog: Logging test/images
cvs rlog: Logging test/sources
cvs rls: Listing module: `test/sources'

I will fix Redmine.

```
<pre>
$ cvs rlog . > /dev/null
cvs rlog: Logging .
cvs rlog: Logging CVSROOT
cvs rlog: Logging test00
$ cvs -q rlog . > /dev/null
</pre>
```

I fixed Redmine Darcs adapter.

2011-02-06 05:16 am - Eric Davis

Toshi MARUYAMA:

That would be great. I've seen many of your updates to Redmine's trunk and can't wait to review them.

I will do to be configurable SCM specific setting.

I will add "scm_cvs_verbose" at config/configuration.yml.

But, this priority is low.

You can cherry-pick my darcs adapter fixing.

2011-02-06 05:37 am - Toshi MARUYAMA

You need to cherry-pick my CVS fixing.
