

ChiliProject - Feature # 223: Document how to clear the start and due date when bulk editing issues

Status:	Open	Priority:	Normal
Author:	Eric Davis	Category:	Documentation
Created:	2011-02-25	Assignee:	
Updated:	2011-02-25	Due date:	
Remote issue URL:			
Affected version:			
Description:	When bulk editing issues the "none" option is shown in select fields to clear their values. "none" also works in the start and due date but it's not documented anywhere (I had to look through the code).		
	Perhaps we can add a short text string to document using "none" next to date fields on bulk edit.
