

ChiliProject - Feature # 295: Group versions in the Issue filters by their status

Status:	Open	Priority:	Normal
Author:	Eric Davis	Category:	User interface
Created:	2011-03-19	Assignee:	
Updated:	2011-03-19	Due date:	
Remote issue URL:			
Affected version:			
Description: In the issue filters for Target Version, all versions are listed. I propose we group them based on their status: * Open * Locked * Closed This will make it easier to find the currently open versions. Examples: loptgroup-version-filters.png! loptgroup-version-filters-expand.png!
