ChiliProject - Feature # 312: REST API for Journals

Status:	Closed	**Priority:**	Normal
Author:	Emmanuel Bourgerie	**Category:**	REST API
Created:	2011-04-01	**Assignee:**	
Updated:	2011-09-04	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	Hi folks !
	I'm using the REST API, but it seems there is currently no way to read/post comments this way. Is it planned ?

History

2011-04-01 10:56 pm - Eric Davis

- Status changed from Open to Needs more information

Comments on what data? Issues, News, Forum Threads?

2011-04-02 08:20 am - Emmanuel Bourgerie

Sorry, I didn't specify : issues in my case.

To be more specific, we are working on a front-end more "customers compliant" with limited information, based on the API. What we lack the most is an access to comments.

2011-04-03 11:22 pm - Eric Davis

- Subject changed from REST API for comments to REST API for Journals

2011-09-04 09:22 pm - Holger Just

- Status changed from Needs more information to Closed

You can get the whole history of an issue by using an URL like this: https://www.chiliproject.org/issues/312.xml?include=journals

Similarly, you can update issues by properly using the same endpoint as the issue update form for updates. That is, @POST@ to https://www.chiliproject.org/issues/312.xml
