ChiliProject - Bug # 393: "404" response on "Repository" link for SVN

Status:	Declined	**Priority:**	Normal
Author:	Artem Naluzhnyy	**Category:**	SCM
Created:	2011-05-13	**Assignee:**	
Updated:	2011-05-13	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	Since version 1.3.0 the "Repository" link generates "404" response for my SVN repository:

<pre>Processing RepositoriesController#show (for 10.179.248.155 at 2011-05-13 02:28:18) [GET]
  Parameters: {"action"=>"show", "id"=>"test", "controller"=>"repositories"}
Error parsing svn output: undefined method `name' for nil:NilClass
Output was:

Rendering template within layouts/base
Rendering common/error (404)
Completed in 343ms (View: 243, DB: 5) | 404 Not Found [https://10.0.0.1/projects/test/repository/]</pre>

At the same time direct requests to revisions (/projects/NAME/repository/revisions/ or /projects/NAME/repository/revisions/777) work as usual.
