ChiliProject - Feature # 470: Remember issue page

Status:	Open		**Priority:**	Normal
Author:	Tom Rochette		**Category:**	Issue tracking
Created:	2011-06-13		**Assignee:**	
Updated:	2011-07-28		**Due date:**	

Remote issue URL:	
Affected version:	
Description:	When navigating through the issue list, changing from page to page, it would be useful that this information be conserved so that when you go in an issue and go back to the issue list, you are on the same page as you were before.

- Status changed from Open to Needs more information

Do you mean "Remember issue list"? Like:

On issues list

Applied filter "assigned to me"

Clicked to view a issue

Click back to issues list

Should still show the "assigned to me" filter

2011-06-17 05:05 pm - Tom Rochette

Almost :)

On issues list

Applied filter "assigned to me"

Go to page 3 (of 5)

Clicked to view a issue

Click back to issues list

Should still show the "assigned to me" filter, on page 3 of 5
