ChiliProject - Feature # 878: Automatic character decoding in repository

Status:	Open	Priority:	Normal
Author:	Nickolay Shashkin	Category:	
Created:	2012-02-12	Assignee:	
Updated:	2012-02-13	Due date:	

Remote issue URL:	
Affected version:	
Description:	Hello!
	Among my friends there too few people who like to customize the encoding.
	I do not know - whether it is right, but once we pointed Repository_Encodings = "" and applied the patch,
	followed by 'bundle install', life has become much easier.
	I do not know Ruby, but tried to keep style and indentation.

History

2012-02-12 03:26 pm - Nickolay Shashkin

While it works only for Mercurial.

2012-02-13 09:55 am - Nickolay Shashkin

- File 0001-Automatic-character-encoding-detection-in-repos.patch added

Patch in Git format.
